

LARGE HORIZONTAL TURNING CENTERS WITH
2-AXIS TO Y-AXIS MACHINING CAPABILITIES

PUMA

600II • 700II • 800II

PUMA 600/700/800II SERIES

PUMA 600/700/800 II machines are large horizontal turning centers ideal for machining pipes, valves and flanges used in oil and gas industry, hydraulic parts used in construction equipment, and also complex parts used in the aircraft and ship building industries. Maximum turning diameters and lengths are $\varnothing 900\text{mm}$ (35.4inch) and 5050mm (198.8inch) respectively, which are the highest in their class. The slant bed design allows easy chip disposal.

SINGLE SETUP FOR MACHINING LARGE COMPLEX PARTS

- Maximum productivity can be achieved with the machines' 200mm (7.9inch) ($\pm 100\text{mm}$ (3.9inch)) orthogonal Y-axis structure, which allows users to machine a wide range of large and complex parts.

THE LARGEST MACHINING AREA AND TOP PERFORMANCE IN ITS CLASS

- With 5m maximum turning length, $\text{\O}900\text{mm}$ (35.4inch) maximum turning diameter and 11004N · m (8121.0ft-lbs) of Torque, the machines are ideal for the heavy-duty cutting of large parts used in many different industries.
- CAPTO type ATC(Auto Tool Changer) increases the number of tooling options, reduces setup times and is suitable for machining hard-to-cut materials (Titanium, Inconel etc.). **OPTION**

THE SOLUTION FOR MACHINING A WIDE RANGE OF PIPES

- $\text{\O}375\text{mm}$ (14.8inch) maximum spindle through hole diameter makes the machines ideal for turning large diameter pipes.
- The machines take the machining of high-accuracy and performance-critical threads in their stride.

BASIC STRUCTURE

Machine capabilities range from 2-axis to Y-axis, which enables large diameter parts to be set up and machined in a single operation.

Series	Chuck* Size (inch)	1600 mm (63 inch)_Std.			3200 mm (126 inch)_L			5050 mm (199 inch)_XL

Max. tool weight	10 kg (22.0lb)
Magazine motor	Servo

CUTTING PERFORMANCE

PUMA 600/ 700/800 II machines can perform high-productivity, heavy-duty machining operations such as ID/OD turning, end milling, tapping and U-drilling etc.

O.D turning (Material diameter Ø 380 mm)	
Speed	230 m/min (9055.1 ipm)
Feed	0.6 mm/rev (0.0 ipr)
Depth of cut	10 mm (0.4 inch)
Chip Removal rate	1418 cm ³ /min (86.5 inch ³ /min)

Tapping	
Cutting Tool	M33 x P3.5
Cutting speed	15 m/min (590.6 ipm)
Feed	3.5 mm/rev (0.1 ipr)

U-Drill (3-axis)	
Cutting Tool	Ø 30 mm (1.2 inch)
Spindle Load	2000 m/min (7874.0 ipm)
Feed	0.12 mm/rev (0.0 ipr)
Chip Removal rate	171 cm ³ /min (10.4 inch ³ /min)

End mill (Low Speed)	
Cutting Tool	Ø 32 mm (1.3 inch)
Spindle Load	30 m/min (1181.1 ipm)
Feed	90 mm/min (3.5 ipm)
Chip Removal rate	105 cm ³ /min (6.4 inch ³ /min)

End mill (High Speed)	
Cutting Tool	Ø 25 mm (1.0 inch)
Spindle Load	220 m/min (8661.4 ipm)
Feed	1000 mm/min (39.4 ipm)
Chip Removal rate	175 cm ³ /min (10.7 inch ³ /min)

Helical End Milling	
Cutting Tool	Ø 25 mm (1.0 inch)
Spindle Load	240 m/min (9448.8 ipm)
Feed	800 mm/min (31.5 ipm)
Chip Removal rate	100 cm ³ /min (6.1 inch ³ /min)

* The results, indicated in this catalogue are provided as examples only. They may not always be obtained due to differences in cutting and environmental conditions.

STANDARD & OPTIONAL SPECIFICATIONS

Diverse optional features are available for customer-specific work applications.

Please contact your DN Solutions representative for detailed machine information.

● Standard ○ Optional X N/A

There is a high risk of fire when using non-water-soluble cutting fluids, processing flammable materials, neglecting the controlled and careful use of coolants and modifying the machine without the consent of the manufacturer. Always check the SAFETY GUIDELINES carefully before using the machine.

PERIPHERAL EQUIPMENT

Long boring bar OPTION

The long boring bar option allows customers to easily machine deep holes and reduce cycle time. Please consult with DN Solutions for more details.

Twin chucking OPTION

For more stable pipe threading processing, the twin chucking option (manual or pneumatic) is available. Please consult with DN Solutions for details.

Steady rest OPTION

For turning long parts, various types of hydraulic steady rests (Single, Double or Twin type) are available.

Quick change CAPTO OPTION

The Quick Change Tool system simplifies tool change operations. It is recommended for users who a) need to change tools frequently or b) reduce set-up times.

Coolant tank

Standard bed : 470L
L: 570L (LY: 600L)
XL: 770L

DN Solutions's ergonomic roller coolant tank design, allows users to easily replace and refill coolant. The roller mechanism on the coolant tank allows users to simply take it out and put it back in the machine... similar to a drawer.

Chip conveyor (Right side) OPTION

Hinged belt

Magnetic scraper

Chip conveyor type	Material	Description
Hinged belt	Steel	Hinged belt chip conveyor, which is most commonly used for steel work (for cleaning chips longer than 30mm), is available as an option.
Magnetic scraper	Cast Iron	Magnetic scraper type chip conveyor, which is ideal for diecasting work (for cleaning small chips), is available as an option.

Coolant chiller (recommended) OPTION

A coolant chiller is recommended to help prevent temperature rises and to reduce thermal deformation when using a water-insoluble coolant or high-pressure coolant system (i.e., power over 1.5kW).

Tool ID system OPTION

Tool ID is available with the Capto ATC option. The small chip that is inserted into the Capto tool memorizes tool data like Tool No., Tool offset, Tool life etc. The customer can access the tool data via RFID (Radio Frequency Identification). Through this function, the customer is able to check the changing time of tool and reduce the potential for human error in calculating the tool offset.

DN SOLUTIONS FANUC i PLUS

DN Solutions Fanuc i Plus maximizes customer productivity and convenience.

15" Screen + New OP

DN Solutions Fanuc i Plus' operation panel enhances operating convenience by incorporating common-design buttons and layout. It features a Qwerty keyboard for fast and easy data input and operation.

DN Solutions Fanuc i Plus

- 15-inch color display
- Intuitive and user-friendly design

USB and PCMCIA card QWERTY keyboard

- EZ-Guide i standard
- Ergonomic operator panel
- 2MB Memory
- Hot keys

iHMI touchscreen OPTION

iHMI provides an intuitive interface that uses a touchscreen for quick and easy operation.

Range of applications

Providing various applications related to planning, machining, improvement and utility, for customer convenience.

SKETCH-TURN OPTION

DN Solutions Conversational programming software for PC

- Easy to learn for beginners
- Time savings in programming
- Reduce processing cycle time

STABLE THREADING PERFORMANCE

All PUMA 600/ 700/ 800 II series (2-Axis* to Y-Axis) are capable of threading work.

* In order to re-machine threads or perform arbitrary speed threading on a 2-Axis machine, additional optional devices have to be selected.

Threading repair function

This function allows users to repair threads even when the original program is not available. This is a standard Fanuc NC function.

Arbitrary speed threading

OPTION

This function allows users to control and override spindle speeds in order to set them to produce/replicate the best thread quality.

Re-machining function

OPTION

This function is included in the arbitrary speed threading. It allows users to re-machine damaged threads using the existing program.

RESPONDING TO CUSTOMERS ANYTIME, ANYWHERE

DN Solutions Global Network

DN Solutions provides systems-based professional support services, before and after the machine tool sale, by responding quickly and efficiently to customers. By supplying spare parts, product training, field service and technical support, we provide the expert care, attention and assistance our customers expect from a market leader.

Global sales and service support network		51	Technical centers Technical center, Sales support, Service support, Parts support
4	Corporations	200	Service posts
155	Dealer networks	3	Factories

CUSTOMER SUPPORT AND SERVICES

We're there for you whenever you need us.

We help our customers operate at maximum efficiency by providing them with a range of tried, tested and trusted services - from pre-sales consultancy to post-sales support.

Field services

- On-site service
- Machine installation and testing
- Scheduled preventive maintenance
- Machine repair service

Parts supply

- Supplying a wide range of original DN Solutions spare parts
- Parts repair service

Training

- Programming, machine setup and operation
- Electrical and mechanical maintenance
- Applications engineering

Technical support

- Supports machining methods and technology
- Responds to technical queries
- Provides technical consultancy
