

HIGH-SPEED, HIGH-PRODUCTIVITY
HORIZONTAL MACHINING CENTER

NHP

5500 • 6300 • 8000

NHP 5500 • 6300 • 8000

NHP series machines are designed to improve your productivity with their high speed, powerful cutting performance and world-class specifications. The machines' one piece bed structure, featuring step guideways, provides extra rigidity and impressive rapid rates ensure high productivity. In addition all NHP machines are equipped with a range of user-friendly functions and features.

HIGH RIGIDITY ONE-PIECE BED

The high rigidity one piece bed is ideal for heavy-duty machining.

HIGH PRODUCTIVITY AND RELIABILITY

NHP machines' rapid rates have been increased through the adoption of a high-speed axis drive system. Servo-driven automatic tool changers (ATC) and automatic pallet changers (APC) increase productivity and improve process reliability. (An increased pallet size option is available on the NHP5500 and 6300 machine models).

USER-FRIENDLY FUNCTIONS

A range of new user-friendly features and functions have been introduced to make operators' lives easier and more productive.

BASIC STRUCTURE

Step guide-type high-rigidity bed supports even-higher productivity.

Travel distances

NHP 5500 (X/Y/Z)

800/750/850 mm
31.5/29.5/33.5 inch

NHP 6300 (X/Y/Z)

1050/900/1000 mm
41.3/35.4/39.4 inch

NHP 8000 (X/Y/Z)

1400/1200/1370 mm
55.1/47.2/53.9 inch

Rapid rates

NHP 5500 / 6300

60 m/min
2362.2 ipm

NHP 8000

50 m/min
1968.5 ipm

All axes feature roller-type LM guideways and high-precision, low-noise producing ball screws to improve performance and accuracy.

High-rigidity roller-type LM guideways ensure best-in-class accuracy

TABLE

The servo-driven APC is reliable and stable, and has been designed with your productivity in mind.

Higher cutting power

NHP 5500

Ø850 x H1100 mm
33.5 X 43.3 inch

NHP 6300

Ø1050 x H1350 mm
41.3 X 53.1 inch

NHP 8000

Ø1450 x H1550 mm
57.1 X 61.0 inch

Max. workpiece weight

NHP 5500

800 kg 1763.7 lb

NHP 6300

1500 kg 3306.9 lb

NHP 8000

2000 kg 4409.2 lb

Improved pallet and APC system

The APC system ensures fast and accurate pallet change operations. In addition to its outstanding performance, the APC has also been designed with more space - improving accessibility and operator convenience.

	NHP 5500	NHP 6300	NHP 8000
Pallet change time	8.5 s	12 s	16 s

Cone air blower

The mechanism, designed for precise and repeatable pallet positioning, injects high pressure air into the location cones connecting the table to the pallet. This removes chips from the locating surfaces and ensures highly accurate pallet positioning.

SPINDLE

The high-speed spindle minimises vibration and thermal growth whilst offering the fastest acceleration and deceleration rates, guaranteeing superior cutting performance compared to the competition.

High-speed, high-performance spindle

Designed to minimize vibration and thermal error while offering rapid acceleration and deceleration, the spindle delivers excellent cutting performance irrespective of the material being machined. The spindle's increased rigidity means takes high-speed cutting and heavy-duty machining in its stride.

Max. spindle speed

10000 r/min

6000 r/min option

6000 r/min option

15000 r/min option

Max. power

45 / 25 kW 60.3 / 33.5 hp

37 / 22 kW 49.6 / 29.5 hp option

55 / 30 kW 73.8 / 40.2 hp option

37 / 30 kW 49.6 / 40.2 hp option

Max. torque

600 N·m 442.8 ft-lbs

809 N·m 597.0 ft-lbs option

1010 N·m 745.4 ft-lbs option

398 N·m 293.7 ft-lbs option

Spindle cooling system

An oil cooler system is provided as standard to facilitate long machining runs and continuous operation. The oil is cooled in a cooler before being circulated around the spindle bearings and built-in motor to minimise thermal displacement and ensure high precision.

Dual-face tool locking system

The dual contact face and taper system improves rigidity, increases tool life and, by minimising vibrations, ensures high surface finishes and surface integrity.

Type

ISO #50

CUTTING PERFORMANCE

The NHP Series realizes excellent machining performance thanks to its improved structure and comprehensive tooling system.

High cutting power

High performance machining can be undertaken quickly and accurately.

NHP series

(Motor power : 45/25 kW(60.3/33.5Hp))

Face Mill_Carbon Steel (SM45C) [ø125mm(4.9inch) Face mill (8Z)]

	Machining rate	Spindle speed	Feed rate

NHP 6300			5.6 s	
NHP 8000			6.1 s	

Machining with short tools

The distance between the spindle and the center of the pallet has been reduced to enable heavier-duty machining with shorter tools.

Features

- Increased tool rigidity
- Improved ATC repeatability
- Minimal Z axis displacement at high speed
- Increased tool life

Tool magazine for diverse types of tools, including pot, chain and matrix tool types

The NHP Series provides 40 tools as a standard feature, and up to 376 tools as an option.

Pot type magazine **option**

40 / 60 tools

Chain type magazine

90 / 120 / 150 tools

Matrix type magazine

196 / 256 / 316 / 376 tools

the order sheet.

DN SOLUTIONS MULTI-PALLET SYSTEMS

DN Solutions's linear pallet system (LPS) and multi-pallet system (MPS) help optimise productivity. They can be installed quickly and are easily maintained.

DN Solutions linear pallet system [LPS II] option

Designed to optimized productivity and efficiency, DN Solutions's LPS II linear pallet system delivers outstanding flexibility: the system is scalable and can be reconfigured to suit individual needs.

LPS II(LINEAR PALLET SYSTEM)

LPS II Model	LPS 500 II		LPS 630 II	LPS 800 II
Available Model	HP 5100 II	NHP 5500	NHP 6300	NHP 8000
Forking type	Twin Fork type			
No. of machines	1 - 7			
No. of setup stations	1 - 4			
No. of pallets	12 ~ 70	10 ~ 70	8 ~ 70	
Dimensions (L x W)	7824 x 2400 mm (308.0 X 94.5 inch)	7904 x 785 mm (311.2 X 30.9 inch)	8952 x 3500 mm (352.4 X 137.8 inch)	

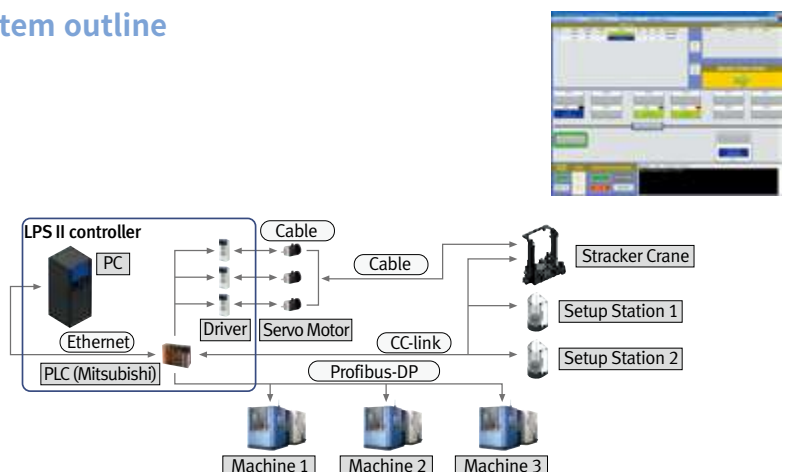

LPS standard control software

- Easy-storage of basic information for flexibility.
- Platform management software for rapid production and changes in quantity.
- LPS management solution for fast and flexible production and sudden changes in quantity.

DN Solutions production management system [DPMS]

The DPMS is an operating system designed to ensure effective control and management of the LPS. The main window provides a solution that enables a flexible and rapid response to changes in output.

System outline

Features

- Easy to expand and extend
- Spacious system improves work efficiency
- Stable and efficient system operation
- Fast installation and commissioning
- Applicable for all HMC machines
- Easily maintained

DN SOLUTIONS MULTI-PALLET SYSTEMS

DN Solutions round pallet system [RPS] option

Compared to standard machines that use 2-pallet-type APCs, the RPS can handle 7 - 9 pallets for extended machining operations. This facilitates HMLV (High Mix - Low Volume) manufacturing.

ROUND PALLET SYSTEM

DPMS is an operating system for the control and management of the RPS. DPMS functions include: the scheduling of operations and data input and making data changes.

Unit : mm

USER CONVENIENCE

Ergonomic design guarantees users' convenience and safety.

User-oriented design

Internal footings and an anti-door-lock function prevent the operator from being locked in the machine and guarantee operator safety. The centralized service unit and screen panel are positioned to enhance operator comfort and convenience.

1.
Flushing system to remove chips from the spindle top and slide cover.

2.
Coolant through spindle function for enhanced productivity option

3.
Centralized utility service unit

The utilities service unit is centralized for easy maintenance.

ATC screen panel provides easy tool data entry at the tool magazine area

Safety has been improved with machine internal footings

Anti-door lock device

FANUC 31i PLUS

Fanuc 31i Plus maximizes customer productivity and convenience.

15" Touch screen + New OP

DN Solutions Fanuc 31iB/B5 Plus' operation panel enhances operating convenience by incorporating common-design buttons and layout. It features a Qwerty keyboard for fast and easy data input and operation.

Fanuc 31i Plus

- 15-inch color display
- Intuitive and user-friendly design

USB and PCMCIA card QWERTY keyboard

- EZ-Guide i standard
- Ergonomic operator panel
- 4MB Memory
- Hot keys
- Enhance AICC BLOCK
- Touch pen provided as standard

iHMI touchscreen

iHMI provides an intuitive interface that uses a touchscreen for quick and easy operation.

Range of applications

Providing various applications related to planning, machining, improvement and utility, for customer convenience.

EZ WORK

The software developed by DN Solutions features numerous functions designed for convenience and ease of operation.

EZ work

The EZ work package delivers speed and efficiency. This menu-driven innovation not only helps customers reduce setup times, but also simplifies common tasks and procedures, reducing the potential for errors. EZ work reduces operating time, protects machinery, enhances quality and speeds up maintenance interventions.

Tool support functions

Tool management I

- Tool magazine control
- Tool state display
- Fastems Tool Add/Remove Function

option

Tool management II *option*

- Tool magazine control
- Tool life management
- Tool life prediction
- Tool state control
- Balluff Tool ID function

Tool load monitor *option*

- Detection of tool damage
- Detection of abnormalities during operation
- Detection of no-load air cutting

Productivity improvement functions

Adaptive Feed Control

Function to control feedrate so that the cutting can be carried out at a constant load

APC Setting Screen

A simple automation function that supports automatic processing of the next pallet by setting the processing program for each pallet of the equipment including APC in advance

PMC Soft Panel Switch

Manual operations that occur continuously in each stages for APC,ATC change command

Operation support, Help desk functions

Operation rate

- Measure various machine operating rate
- Support 3 shift operation
- calculate and save 30 days operating rate
- Show data for a specific period

Pattern Cycle

A function to automatically create frequently used part programs.

Renishaw GUI

Renishaw tool length measuring and compensate function

Spindle Warm Up

A function that assists spindle warm-up for spindle life when the spindle has not been used for a certain period of time

CONVENIENT OPERATION

Siemens 840D

15.6" screen + new operation panel

The newly-designed operation panel improves the customer convenience by incorporating and using common-design buttons and layouts, and includes the familiar QWERTY keyboard for fast and easy operation.

- 15.6" display
- 10MB high capacity user memory
- USB & ethernet (standard)
- QWERTY keyboard (standard)
- High-speed calculation and simulation can be fulfilled by improved processor functionality

Conversational convenient function

Simulation and machining contour monitoring

Smart function

Side screen widget

5-axis kinematic measuring cycles

3D collision avoidance and collision avoidance ECO

Shop mill part programming

*Please contact DN Solutions for information on the NHP 5500S

The DN Solutions promise, MACHINE GREATNESS, has two important meanings. The first is simple: DN Solutions makes great machines. The second is a challenge to our end-users. With a product line that is this comprehensive, accurate and reliable, we equip our customers to machine greatness. The big question: *Why should you choose DN Solutions over other options?*

Here's why...

**MACHINE
GREATNESS™**

WHAT YOU MAKE AND HOW YOU MAKE IT MATTERS—SO MAKE IT
GREAT WITH DN SOLUTIONS.

UNBEATABLE MACHINES

You won't find a more comprehensive range or a better combination of value, performance and reliability anywhere else.

ROBUST PRODUCT LINE

We offer an impressive range of machine models and hundreds of configurations. Whatever your machining needs and requirements, there's a DN Solutions for you.

READILY AVAILABLE - ANYWHERE IN THE WORLD

Machining centres (including 5-axis machines), lathes, multi-tasking turning centres and mill-turn machines, and horizontal borers with best-in-class specifications are all available...ready to install.

EXPERT SERVICE

Our dedicated, experienced and knowledgeable team is totally committed to improving your productivity, growth and success.

CUSTOMER SUPPORT AND SERVICES

We're there for you whenever you need us.

We help our customers operate at maximum efficiency by providing them with a range of tried, tested and trusted services - from pre-sales consultancy to post-sales support.

FIELD SERVICES

- On-site service
- Machine installation and testing
- Scheduled preventive maintenance
- Machine repair service

PARTS SUPPLY

- Supplying a wide range of original DN Solutions spare parts
- Parts repair service

TRAINING

- Programming, machine setup and operation
- Electrical and mechanical maintenance
- Applications engineering

TECHNICAL SUPPORT

- Supports machining methods and technology
- Responds to technical queries
- Provides technical consultancy

RESPONDING TO CUSTOMERS ANYTIME, ANYWHERE

DN Solutions Global Network

DN Solutions provides systems-based professional support services, before and after the machine tool sale, by responding quickly and efficiently to customers. By supplying spare parts, product training, field service and technical support, we provide the expert care, attention and assistance our customers expect from a market leader.

Global sales and service support network
